## FINtango Festivals

under the patronage of Aki Kaurismäki

The dance, reminding of a slowfox, is simpler than its Argentinian counterpart; it is known to be an ideal ballroom dance for beginners. Our dance teachers Leena&Mika from Kuopio have already communicated this easy-going groove in over one hundred courses abroad.

**FINtango gives time to listen  
to your emotions, to the heartbeat of nature,  
time to just be yourself.**

A particular highlight is the mobile sauna. Sauna may be the best-known element of Finnish culture and creates an open and relaxed atmosphere. Outside of Finland, a sauna at a public event is seen as quaint, brave and inventive. We supply changing facilities, showers and towels.

An exhibition of historic photographs by Reijo Porkka accompanied by a text by Maarit Niiniluoto offers an insight into the history of Finnish Tango.

Flamed salmon or fish soup, savoury Voileipäkakku (sandwich cake) or sweet Korvapuusti (cinnamon rolls), there are many mouth-watering delicacies in Finland.

### booking

Don't hesitate to contact us with your ideas: all FINtango Festivals are tailor-made for the occasion.

Be it simple concerts, standalone events, or part of bigger festivals: different bands, DJs and dancers are available and can be combined with other elements of Finnish culture: sauna, art, cuisine, movies by Aki Kaurismäki, or whatever else comes to mind...

## A brief history of Finnish Tango

Tango arrived in Finland as in all of Europe in the early 20th century, via Paris, Berlin and Kopenhagen. The first Tango shows were given in Helsinki in 1913, creating quite a buzz with its sensual exoticism. A movie followed suit. It was the hip new urban fashion in town.

In the 1930s, Finnish composers started writing own tangos and introduced more nordic imagery into the lyrics (like „Lumihialeita“ or Snow Flake, 1936). The music, shifting into minor key, was enhanced by touches of slavic or gipsy sounds and a Finnish beat. In the 2nd world war, the dance was totally forbidden. Still, by the 1940s about half of the entries on the popular music charts were Tangos, with

Foto\_ Reijo Porkka

lyrics full of longing and symbolic images. As legendary composer Toivo Kärki put it: „the sadder the Tango, the happier the people seem to be“. In the post-war period Tangos matured from a popular urban phenomenon to the enthusiastic

adoption by the countryside: The Tanssilava, a communally constructed open-air wooden dancefloor, came to be the central point of rural life.

In the 1960s Finnish Tangos famously competed with the Beatles for Nr 1 hit singles. The second essential composer, Unto Mononen captured the mood with „Satumaa“ (fairy land), which became the most influential Finnish Tango and a national institution. Star singers also came from the Roma minority and Tango music turned out to be the accepted outlet for emotionality, for romance, for opening the heart.

# Tango in Finland today

Although it could not hold the epic heights of 1960s fame, Finnish Tango still is very much present in

Finnish popular culture: over 600 rural dance pavilions or „Tanssilavat“ remain active, mainly in summer, all across Finland. Usually located on some romantic lakeshore, providing large dancefloors and stages for live orchestras, they are popular destinations for the summer weekends. They count with a dedicated following and cultivate an atmosphere of bygone rural happiness. Many dancers are nowadays organized in clubs or associations.

The most famous Tango Festival is Seinäjoki Tangomarkkinat. Over 100,000 people from all over Finland and the world come to see and feel the atmosphere of the Festival. This is a huge number of people for a country of only 5.5 million people. It hosts the country’s most popular singing competition, the election of Tango Queen and Tango King, which has led to the emergence of countless new stars. The Tango songwriting contest, the Championship of Finnish Dance Orchestras and of Tango Dancing complete the aura of a world cup in Finnish Tango.

Smaller but growing, Maailmantango Festival in Tampere sets out to bring traditional Finnish Tango into a world perspective by presenting it next to Argentinian tango and other world music with related minor keys and melancholic undertones.

In Karelia, the innovative holiday week FINtangoFI

combines Finnish tango with sauna culture, natural experience and historic rural traditions.

But it is not only the Traditionalists who keep the Finnish Tango alive: Inspired by the use of Tango in Aki Kaurismäki's hugely popular movies (he is an outspoken fan of Tango and is famously quoted for saying „Tango was invented in Finland“) and the global success of Argentinian Tango, young artists with all kinds of musical backgrounds return to the roots of Finnish Tango, and develop it in all directions: They do scientific research, dig up unpublished tangos of the 30s, or take the Tango into the electronic age. They smuggle it into avant-garde DJ sets and they write exciting new compositions.

Tango from Finland, very much alive, is now aiming for recognition on the world music stage.

# Tango contacts

## 1. bands/artists

**Markus Allan**

Tango legend. Started his Tango career in 1963 as one of the first Roma Tango stars. Planning to celebrate his 75 years 2020 with a concert tour.

contact: MA-Musiikkituotanto  
ma.musiikkituotanto@gmail.com +358 40 5577199  
www.facebook.com/markusallanofficial

**Bändi - Finnish Tango**

The ensemble Bändi from Germany, honored by a „creole“ worldmusic-award, plays newly arranged Finnish Tango in a joyful and timeless way.

contact: Thomas Salzmänn/Kristina Debelius www.bändi.com
